**Re: Withdrawal from Representation**

Dear Chris:

Since we have had great difficulty in communicating with you (you did not inform us of your move and respond to our letter regarding the deadline for filing a utility application, nor our letters of September 19, 2001, October 18, 2001 and February 25, 2002) and you have not paid our recent bills totaling \$2,325, \$2,040 of which has been overdue for more than 120 days, we are withdrawing from representing you and are returning copies of your files to you as identified below.

1. Matter 900100 – Provisional Application Serial No. 60181,991 filed February 11, 2000 entitled "Automated System for Moving and Storage Industry". Because a utility application was filed February 9, 2001, the common subject matter between the two applications can claim priority from the filing date of the provisional application.
2. Matter 900110 – Utility Patent Application Serial No. 09/779,964 filed February 9, 2001. This application was filed in a last-minute rush when we were only able to track you down and get additional information for this application a few days before the deadline for claiming priority of the provisional application. The claims that were filed were very broad and additional claims should be filed, but you have not responded to our requests for more information to prepare the claims and file the appropriate information disclosure statement or pay our bill.

There are no outstanding mandatory deadlines in this utility application, but an "Information Disclosure Statement" should be submitted as discussed in our February 25, 2002 letter to you.

We are filing a withdrawal of representation in this application and will request future correspondence to go directly to you at the above address.
